

ER/EV Series

Premium Fire & Industrial Tone and Voice Products

**ER-1****EV-1****ER-5****EV-5**

Unmatched Performance and Flexibility

THE NEW STANDARD FOR **PERFORMANCE** in any environment

Since 1905, Sentry Siren has led the mass notification industry in quality, performance and durability. Continuing in this tradition, we are proud to introduce the ER & EV series of electronic tone & voice fire & industrial notification products. Coupling industry leading intelligibility and enhanced audible range, the ER & EV series promises to challenge traditional perceptions of fire & industrial signaling. Featuring battle proven designs, maintenance-free hardware and rock-solid quality control, the ER & EV series are the go-to emergency signaling devices for virtually any emergency alerting need. All units feature multiple certifications and approvals for installations around the world.

- ▶ Up to 126 dB peak SPL
- ▶ 45 user selectable tones
- ▶ User recordable voice option
- ▶ Hazardous location certified models
- ▶ UL, CSA and cULs approvals
- ▶ IP 66 protection for harsh environments

When the message is this important, it pays to be understood.

Tone Signal

ER-1

- ▶ 100 dB(a) peak @ 3 ft.
- ▶ Volume adjustable
- ▶ Effective Range: 100 ft.
- ▶ 10 selectable tones
- ▶ 24Vdc, 24Vac, 115 Vac and 230Vac options
- ▶ Automatic synchronization for multi-sounder installs

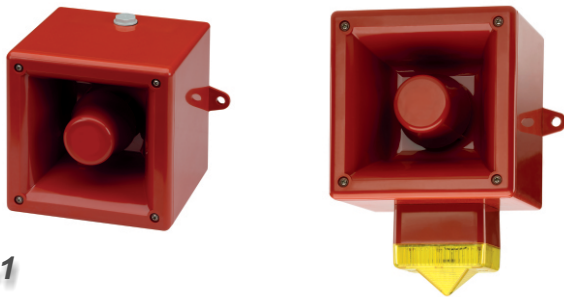

Tone Signal

ER-5

- ▶ 119 dB(a) peak @ 10 ft.
- ▶ Volume adjustable
- ▶ Effective Range: 400 ft.
- ▶ 45 selectable tones and custom tones available
- ▶ 24Vac/dc, 48Vdc, 110/220 Vdc, 115Vac and 230Vac options
- ▶ Automatic synchronization for multi-sounder installs

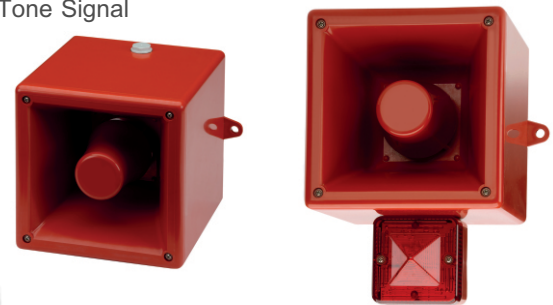

Voice & Tone Signal

EV-1

- ▶ 110 dB(a) peak @ 10 ft.
- ▶ User recordable voice warning.
- ▶ Effective Range: 200 ft.
- ▶ Voice or music playback, repeatable with alternating tone alerts.
- ▶ 9-30Vdc, 115Vac and 90-260Vac options. 50/60hz

Voice & Tone Signal

EV-5

- ▶ 126 dB(a) peak @ 10 ft.
- ▶ User recordable voice warning.
- ▶ Effective Range: 1,000 ft.
- ▶ Voice or music playback, repeatable with alternating tone alerts.
- ▶ 24Vdc, 90-260Vac options. 50/60hz
- ▶ Record warnings with included mic or upload custom mp3's

Sentry Siren offers intrinsically safe, explosion-proof, flame-proof and non-sparking alarm horn sounders, PA/GA and mass notification systems for use in both gas and dust atmospheres. Multiple approvals including ATEX, IECEx, UL, cULs, FM, Ex, EAC, ANZEx and INMETRO ensure universal compliance.

Be sure to ask about our full line of siren activation, weather monitoring and communication packages including "Storm Sentry", the world's first fully automatic siren activation system, "S.T.A.R.", our state-of-the-art report-back status monitoring system, and "E.P.I.C.", the world's first PC-based FEMA IPAWS interface.

UL, CSA, CE and cULs approvals enable Sentry products to be globally specified and many sounders and beacons are CPR compliant, EN54-3 & EN54-23 tested, for fire alarm applications.
